TITLE: LIGHT PROTECTING SHEET AND METHOD FOR MANUFACTURING THE SAME

AMENDMENT "E"

Commissioner for Patents
P. O. Box 1450
Alexandria, VA 22313-1450

Amendment E: CLAIM AMENDMENTS

Claims 1-10 (canceled).

11. (Currently amended) A method of manufacturing a light protecting sheet comprising:
- applying a two-component adhesive of white color directly onto one side of an aluminum-deposited polyethylene terephthalate film;
 - overlaying a transparent polyethylene terephthalate film on the adhesive;
 - spreading white ink over an opposite side of the aluminum-deposited polyethylene terephthalate film; and
 - coating a hot melt layer directly onto the white ink spread over said opposite side, said white ink having a different adhesive property than the two-component adhesive such that adhesion between the adhesive and the transparent polyethylene terephthalate film is stronger than between the white ink and the transparent polyethylene terephthalate film.

12. (Currently amended) A light protecting sheet comprising:
- an aluminum-deposited polyethylene terephthalate film;
